It also includes a titles index and a comprehensive subject index.

Single copies of the Catalogue are provided free; a charge may be made for requests involving multiple copies.

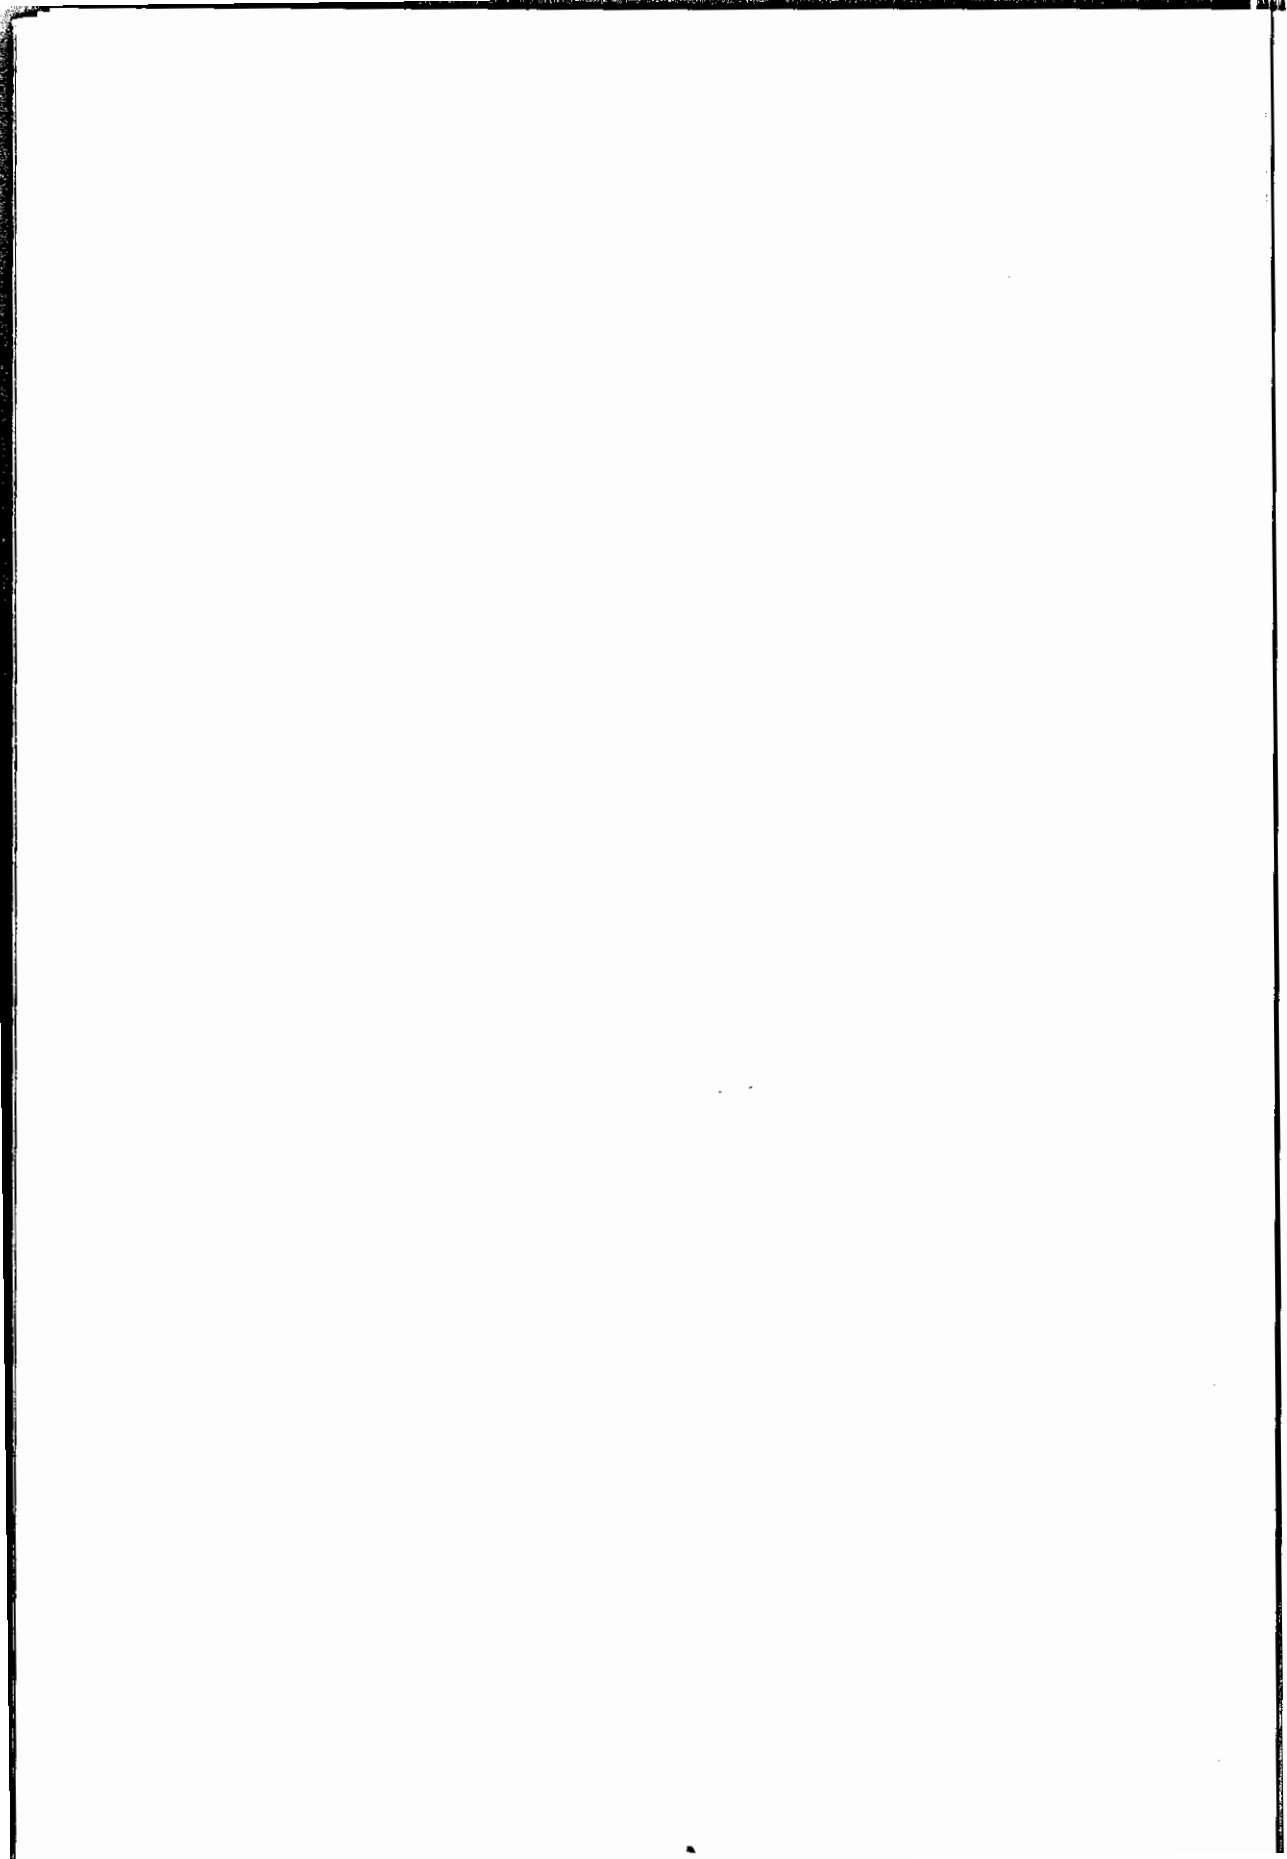

The prices of most of the publications listed in this Catalogue have been increased as from 1 January 1986.

INTRODUCTION

The Australian Bureau of Statistics is the official statistical organisation for the Commonwealth and State Governments. Its main function is to collect statistical information on a wide variety of social and economic activities, to compile statistics and disseminate them to Government, the private sector and the community in general.

How to use this catalogue

This catalogue contains publications released by ABS State Offices and the Central Office in Canberra. The catalogue is divided into four parts.

Part A lists all publications in numerical order except that *within each subject group* the entries precede the State Office entries (see description of numbering system below). Most publications issued by Central Office contain some particulars for each State and Territory as components of Australian totals.

Part B contains information on statistics available in other than publication medium.

Part C contains a titles index showing all current publications issued by the ABS.

Part D contains a detailed subject index of all current publications in alphabetical order. If you are interested in a particular subject area, e.g. foreign trade, employment, etc., you will find it convenient to identify the range of publications from the list of subject groupings on pages iii-v and by this means gain access to all publications within that subject. If you have a specific interest, e.g. the production of butter and cheese, industrial disputes, etc., check the detailed subject index beginning on page 165.

The ABS catalogue numbering system

The system consists of a five digit code (e.g. 5414.0).

The *first two digits* define the subject by nine broad areas (e.g. 5 represents national accounts, balance of payments and foreign investment, foreign trade, public finance, private finance) divided into nine more precise subdivisions (e.g. 54 is foreign trade).

The *third and fourth digits* are the permanent serial numbers allocated to publications within categories formed by the first two digits. An allotted number will remain unchanged provided the contents of a publication remain essentially the same.

Numbers are allotted sequentially as new publications are released.

The *fifth digit*, after the full stop, relates to the ABS office which issues the publication.

The codes for each issuing office are:

- 0 Central Office (Canberra)
- 1 New South Wales
- 2 Victoria
- 3 Queensland
- 4 South Australia
- 5 Western Australia
- 6 Tasmania
- 7 Northern Territory
- 8 Australian Capital Territory

In Part A of this catalogue, within each subject group, all Central Office entries precede the State Office entries.

Information on new and current ABS releases

Currently the ABS publishes about 520 individual statistical titles each year. At present approximately 360 of these are free and about 160 are for sale. As new publications are released frequently, clients may keep up-to-date on new and current releases by obtaining the monthly publication entitled *Publications Issued in (name of the month)* (1102.0). The publication can be obtained by contacting the ABS office in your capital city (see inside front cover). New and current releases are also listed in a *Publications Advice* (1105.0) issued twice weekly by the ABS. Each *Publications Advice* gives the titles of all ABS publications issued on the day the *Advice* is issued and those expected to be released during the following five working days.

How to obtain publications

FREE PUBLICATIONS

Clients may obtain copies of free publications by calling at, phoning or writing to the ABS office in their capital city or the ABS Central Office, Canberra.

When requesting a publication, please quote the title and catalogue number.

PRICED PUBLICATIONS

Copies of priced publications may be purchased over the counter from any office of the ABS. A range of these priced publications (e.g. Year Book Australia, Social Indicators, etc.) is also available from Australian Government Publishing Service (AGPS) bookshops.

Alternatively, clients who wish to receive free or priced publications on a regular basis may use the *ABS Publications Mailing List (PML) Service*. Information on how to use this service may be obtained from any ABS office.

Clients who already use the PML Service and who wish to amend their requirements should quote their account number when contacting the ABS. The account number is shown at the top left hand corner of the address label used to despatch publications to clients.

Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to the ABS.

ORDER FORM

An order form for free and/or priced publications is at the back of this Catalogue. Orders should be directed to the ABS office in your capital city. Addresses of all ABS offices are shown inside the front cover of this Catalogue.

PRICES SHOWN IN THE CATALOGUE

Two prices are shown for a single issue of each priced publication. Where applicable a discounted annual subscription rate for monthly and quarterly publications is also shown. The first single issue price given is the 'over the counter' price, while the second includes packaging and postage at ordinary rates within Australia. Prices shown are for issues to be released in 1986, except for those irregular publications not being released in 1986. In the latter case the price shown is for the latest issue. Prices for earlier editions may be obtained from any ABS office.

Overseas clients should add 10 per cent of the second price to meet the cost of overseas surface postage. Airmail rates are available on request.

PRICES QUOTED ARE SUBJECT TO REVISION

PUBLICATIONS AVAILABLE ON PROVISIONAL ORDER

Prices of publications shown in this Catalogue as *available as a provisional order only* will not be known until just prior to release date. Clients who wish to purchase these publications may, by contacting any ABS office, have their names and addresses placed on a mailing list to receive further details of the expected release date and price when these particulars become available.

MAGNETIC TAPE AND MICROFICHE

A number of catalogued releases, listed in Part B, are available from ABS on magnetic tape and/or microfiche. Information about the scope of each service, ordering arrangements and prices are set out on information sheets relating to the individual services. These are available on request by contacting *Information Services* at the ABS office in any capital city (see addresses inside front cover).

AN INFORMATION SERVICE IN EACH ABS OFFICE

Each ABS office has an Information Service to assist clients. The service is designed to answer inquiries from clients on available official statistics and their usage. The service is also the contact point for clients requiring ABS publications on either an *ad hoc* or continuing (subscription) basis.

These services may be obtained by contacting *Information Services* at the ABS office in any capital city. Addresses and telephone numbers are listed inside the front cover.

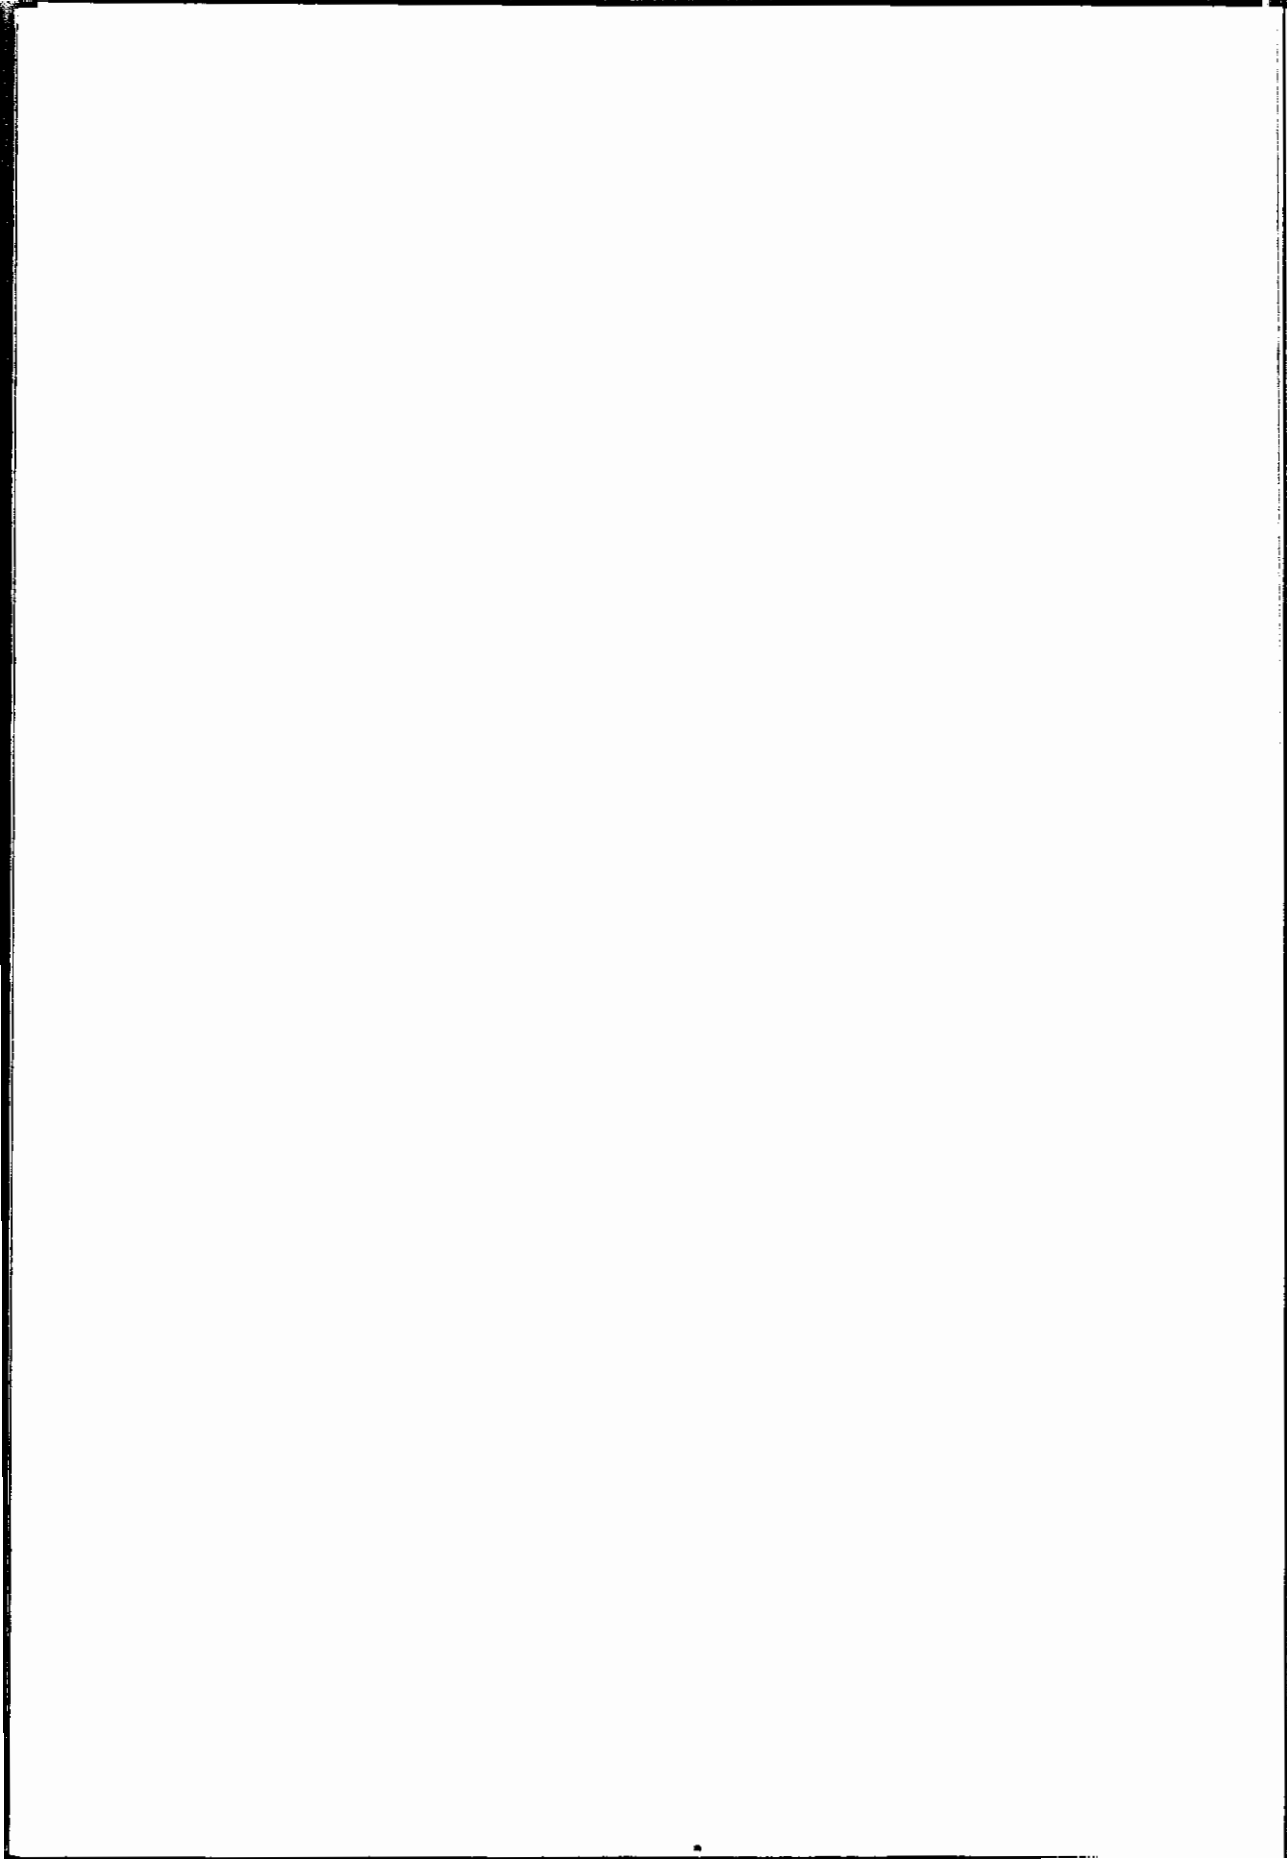

UNPUBLISHED STATISTICS

For practical reasons the ABS does not publish all the statistics and other information it has available.

Unpublished statistics are available, on request, for a variety of topics such as population, dwellings, building, imports, exports, shipping, etc., in the form of computer printout, microfiche, magnetic tape or specially prepared tables.

In cases where a considerable volume of data has to be specially extracted or where a regular statistical service is required, a charge may be made.

Inquiries on the availability of unpublished statistics should be directed to *Information Services* at the ABS office in any capital city (see addresses inside front cover).

Small Area Statistics—detailed characteristics of persons and dwellings for collection districts, local government areas and larger regions are available on summary tapes, microfiche and computer printout.

Cross-Classified Tables—detailed cross-classified tabulations mainly for capital cities and States are available on microfiche in three groups—

Series 1—Produced early to cover a wide range of census data aimed at satisfying a wide cross-section of needs. Numbered 1-95.

Series 2—These tables tend to be of interest to a smaller number of users but are not user specific. Numbered 100-142.

Ad Hoc—These tables are generally tailored to individual user requirements but could be useful to other users and they have some historical value. Numbered 200-237.

Detailed Tables on Magnetic Tape—some general, but mainly user specified tabulations which contain greater amounts of data than can be made available through other output mediums.

Sample Files—two magnetic tape files. The Persons Sample File contains census unit records for a one per cent sample of unidentified persons. The Households Sample File contains census unit records for a one per cent sample of unidentified households in private dwellings and all persons within them, plus a one per cent sample of unidentified persons in non-private dwellings.

Publications—a series of printed publications covering person and dwelling counts for local government areas, urban centres, and statistical divisions; summary and cross-classified characteristics of persons and dwellings for each State and Territory has been issued.

Censuses of Population and Housing

For the 1966, 1971, 1976, 1981 and 1986 censuses, the tapes available are the Collection District Master File (CDMF) and the Collection District Summary File (CDSF). The CDMF contains basic counts and associated geographic codes for every Collection District in Australia. Included on this file, for each Collection District, are the number of persons and dwellings, area in hectares, its Commonwealth Electoral Division, Local Government Area, Statistical Division, Postcode, and latitude and longitude of its centroid. The CDSF contains 34 summary tables which present the characteristics of persons and their dwellings for every Collection District in Australia.

For the 1981 Census two additional files, the Household Sample File and the Persons Sample File, are also available. Details of these files can be found in Census 81—Sample Files on Magnetic Tape (2165.0). (Most of the Census statistics are also available on Microfiche).

7107.0 Agricultural Data Dissemination Services (ADDS) on Magnetic Tape and Microfiche

Offers commodity statistics relating to each local government area in each State drawn from the Australian Bureau of Statistics Integrated Agricultural Commodity Census. The data include information on area and production of crops, pastures; livestock numbers; area of crops irrigated and use of fertilisers. (This release is available on magnetic tape and microfiche).

8113.0 Enterprise Statistics, Data on Magnetic Tape

The tapes contain data for enterprises predominantly engaged in Mining (except services to mining) and Manufacturing, and which operated for the whole of the relevant financial year. To create the tapes, individual enterprise records are ranked in descending order of turnover within industry class. Groups of at least four enterprises are then created to preserve confidentiality and the aggregated unit data (for a number of different data items, e.g. turnover, opening and closing stocks, purchases and selected expenses, rent and leasing expenses, capital expenditure, employment and wages and salaries), are compiled for each group of enterprises.

PART D—SUBJECT INDEX

This index is designed to assist users in determining which Central and State Office publications are relevant to various subjects. *The index is not intended as a comprehensive index of commodities or items covered in the statistics. For example, particular items of production and overseas trade are largely omitted.*

The publication *Manufacturing Commodities, Principal Articles Produced, Australia* (8303.0) contains a detailed alphabetical index of commodities produced in Australia.

Detailed export and import statistics are shown in the following publications: *Australian Exports, Country by Commodity* (5411.0), *Australian Imports, Country by Commodity* (5414.0) and *Foreign Trade, Australia, Part 1: Exports and Imports* (5409.0).

No references are given in this index for Australian and State Year Books (1300.0-1301.6) or Pocket Year Books (1302.0-1302.6) as each of these publications contains a detailed index. The Year Books should be regarded as the principal general statistical reference works produced by the ABS.

NOTE: *The last figure of each catalogue number relates to the ABS office which issued the publication.*
